Judge Latshaw promptly overruled the motion for arrest of judgment and commanded Dr. Hyde to stand up. Before passing sentence he asked the prisoner if he had anything to say. Dr. Hyde, smiling and calm, replied: "I did not understand you, judge."

"Have you snything to say why sentence should not be passed upon you?" repeated the judge.

"My attorneys will talk for me," said 3Dr. Hyde, quietly.

At this point Attorney Lucas, for the defense, arose and told the court he had nothing to say.

CHICAGO-NEW YORK RACE. Rukes for Aero Contest in October Made Public.

Ruizs for Aero Contest in October Made Public.

Chicago, July 5.—Rules and regulations to govern the proposed aeropiane race from Chicago to New York were made public here to-day by J. S. Shafer, publisher of the Chicago Evening Post.

The Post, in conjunction with the New York Times, offers a prize of \$25,000 for the race.

The contest is to begin at Chicago October S, with not less than three entrants, who must have previous records of sustained flights of an hour or more. In case of adverse weather the start may be delayed until October 15. The time limit of the race is seven days, the contestants being allowed to make as many stops as their discretion will countenance.

All must start on the same day, the intervals between their taking flight to be considered in determining the winner. Should all leave the ground at the same moment the winner will be he who first lands in New York.

Under rule eight the possibility of some other contest of the same or greater interest being held prior to October 8 is recognized. To win the prize of \$25,000 the winner must make the flight before any flight of the same or greater distance has been made in any part of the country.

The contestants must pay their own expenses and assume all risks. They must be on the ground here a week and certime, giving trial flights daily. They will be given a percentage of the gate receipts during the trials. The start units to within the city limits of Chicago and the finish within the corporate limits of New York City.

FINDER OF MARS' CANALS IS DEAD

Professor Schiaparelli, Noted Italian Astronomer, Passes Away.

Professor Giovanni Virginio Schiarparelli, a famous astronomer and discoverer of the supposed canals of Mars, died here yesterday.

Professor Schiaparelli was born in a village of Piedmont, Italy, in 1835. He studied in Turin under Encke, and at Pulkova under W. Struve. In 1859 he was appointed second astronomer at the Milan Observatory, and in 1863

at the Milan Observatory, and in 1863 was appointed its director, in which position he continued fantil 1900.

In 1861 he discovered the planetoid Hesperia and in 1877 announced the finding of the so-called canals of Mars. This subject has been taken up with special activity by Professor Lowell, of Flagstaff Observatory, Ariz. He also said he was able to discover markings on Mercury and to fix the period of its axial rotation as the same at its sidereal rotation. This, however, has not been confirmed by other astronomers.

Professor Schiaparelli was the author Professor Schisparelli was the author of a number of important books, including "The Relation Between Comets and Falling Stars," "The Precursors of Copernicus in Antiquity" and "Observations on the Movement of Rotation and the Topography of the Planet Mars."
